

NIKHIL SINGH

Java Backend Software Engineer — Cloud & API Specialist

📞 +91-6388992862 ✉ nikhilsingh1710@gmail.com 🔗 LinkedIn 🐙 GitHub

SUMMARY

Java Backend Software Engineer with strong hands-on experience in building, testing, and supporting enterprise-grade Java-based SDKs and RESTful backend systems. Proficient in Core Java, Spring Boot, REST APIs, SQL, and cloud fundamentals. Currently working on production fintech products where backend services and SDKs are developed in Java, with active exposure to Microsoft Azure cloud services.

EDUCATION

Kamla Nehru Institute of Physical & Social Sciences

B.Tech in Computer Science and Engineering (CGPA: 8.0)

2021 – 2025

Sultanpur, India

TECHNICAL SKILLS

Programming: Java (Core, OOPs), JavaScript, SQL

Backend Development: Spring Boot, REST APIs, JDBC, Hibernate (Fundamentals)

Cloud & DevOps: Microsoft Azure (Training Ongoing), Cloud Deployment Basics

Testing & Validation: API Testing, Backend Validation, Regression Testing, Load Testing

Tools: Postman, JMeter, Git, GitHub, IntelliJ IDEA, VS Code

Database: MySQL, SQL Server (CRUD, Joins, Indexing)

Concepts: MVC Architecture, Microservice Basics, Request-Response Lifecycle, Exception Handling, Log Analysis

EXPERIENCE

Extrieve Technologies Pvt. Ltd.

Java Backend Engineer (Developer Support & QA)

September 2025 – Present

Noida, India

- Worked extensively on Java-based backend systems and SDKs used in fintech and enterprise products.
- Validated Java Spring Boot REST APIs including business logic, request-response flow, and error handling.
- Performed API verification using Postman and backend performance testing using JMeter.
- Analyzed Java application logs to identify runtime exceptions and API failures.
- Supported and enhanced Java-based SDKs for document processing, image validation, and Aadhaar masking.
- Currently undergoing hands-on Microsoft Azure training for Java cloud deployments.
- Worked with enterprise banking clients including HDFC Bank, HDB Financial Services, and Kotak Mahindra Bank.

JAVA-BASED PRODUCT EXPERIENCE

- **QuickCapture SDK (Java):** Image capture SDK with Aadhaar masking and quality validation.
- **Splicer AI (Java Backend):** Spring Boot service for AI-based document segmentation and extraction.
- **ImageWizHelper (Java):** Utility library for image compliance and masking validation.

TRAINING

QSpiders, Noida

Java Full Stack Development Training

2024 – 2025

Noida, India

- Hands-on training in Core Java, OOPs, JDBC, Spring Boot, REST APIs, and SQL.
- Built multiple Java backend applications using Spring Boot and relational databases.
- Integrated React frontend with Java REST APIs.

PROJECTS

Job Portal Web Application

Java, Spring Boot, React.js, SQL Server

- Designed and developed RESTful APIs using Spring Boot for job posting and application workflows.
- Implemented backend business logic, validations, and database interactions using Java and SQL Server.
- Handled API integration, error handling, and response optimization.
